Q. pyramid

// horizontally grow -> pyramid of DOOM
 step1(function(image){
 step2(image, function(filter){

horizontal

100% of
Doom

```

step3(filter, function(caption){
  step4(caption)
});
});

```

X Pros →

Cons →

* code horizontally grow (naki)

aur
kahi
hota

← *

what if

step2()

step3

2 → overcome ?
dis.

⇒

★

PROMISE
