Day36(jquery)

JQuery

JS library

helps in DOM manipulation

2021 → Jquery 2nd most loved JS library.
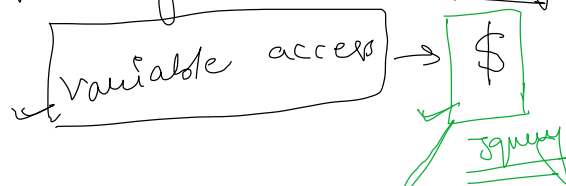

Amazon ✓

① Saare Kaam Karwa sakte ho jo tum DOM through.

→ Code (JS)   Baba log

JQuery . com

When you include Jquery ✓

variable access → $

Jquery

Dum pau
Poora DOM manipulate
Kar sakta hu.

JQuery
or
$ } same

JS

JQuery   React.JS

NextJS   React Native

JS → TS

\#

Let $a = 10;$ → Number

$a = 'Sam';$ → String

errorHandling

eg.
TS
[Let a : String $= 10;$ ✓
    $a = 'Sam';$ X   ] → error Handling
   ⌐ autocompletion
    $a = 2000;$ ✓

—— X —— X —— X —— X ——

\# Selecting Element

$ → enuf

⑤   DOM   querySelectorAll
Selector
                                tag   class   JD
    $ JQuery

all   all
_____

DOM   JQuery

[.style] → [.CSS]

textContent → [.text()]] { → getter()
                              { → setter()
         .html ( )

Attributes manipulate

[.attr ( )] → getter
               → setter

docs: • JQuery.com → API docs
      • you might not need JQuery.com

(alway works with inputs)

input manipulation

.value → [.val ( )]
                    ↙   ↘
                getter   setter

class manipulation

        • addClass ( ) →
        • removeClass ( ) →
        • toggleClass ( ) → toggle
                          → contains

- has class ( )

Library

- Iske code ko aap use karte ho.

- mai apne hisaab se cheeze karta hu & I might have multiple ways to performs a task

Framework

- ye aapke code ko apne upar use karta hai.

- framework gives me a fixed set of steps in order to perform a task.
